

ALBRIGHT COLLEGE FOUNDERS WALK

Albright College's Founders Walk provides a new entrance to Campus Center flanked by attractive new green spaces, additional reconfigured walkways, and a new ADA accessible route. The project focused primarily on the area between Campus Center and the Gingrich Library/Administration Building and included significant site work, new hardscapes, and extensive landscaping.

The Founders Wall, shown below, is constructed of Pennsylvania Bluestone. It was incorporated into the hardscape and is engraved with the names of major donors to Albright College.
